

## Projects Group: Project Manager

United Architectural Metals (UAM) is actively seeking [Project Managers](#) to join our team in North Canton, Ohio. This position offers a unique opportunity to lead a project team in collaboration with world-famous architects, and engineers to design and manufacture high-performance building enclosures across the United States.

The [Project Manager](#) reports to the Director of Project Management, is the primary point of contact throughout the project, and leads the project team.

### Key Roles and Responsibilities:

- Act as the point of contact with UAM customers, architects, construction managers, and owners throughout the project.
  - Attend all in-person and virtual meetings.
- Review contracts, drawings, specifications and other pertinent proposal documents.
- Develop detailed project schedules. Track, update and report on production and installation activities.
- Lead a team of facade designers, engineers and coordinators.
  - Confirm system as designed and detailed meets all project performance requirements and specifications.
- Ensure all materials are ordered on time and complete per project specifications.
- Collaborate with manufacturing and quality control personnel to ensure finished product meets schedule, quality, and performance expectations.
- Collaborate with on-site field personnel to ensure finished product meets customer expectations.
  - Travel for mock-ups, first installation, and as needed to support customer.

### Required Qualifications:

- Bachelors' degree in a construction-related field such as Architecture, Engineering, or Construction Management is preferred.
- 5+ years of experience in a related field. Unitized curtainwall experience preferred.
- In-depth understanding of key design criteria for facade systems (air/ water infiltration, thermal, structural).
- Working knowledge in 2D and 3D design and fabrication software.
- Proficient in Microsoft applications, scheduling software, and Bluebeam.
- Ability to read architectural and structural drawings.
- Excellent attention to detail, organizational skills, and problem-solving abilities.
- Strong written, verbal, mathematical, and interpersonal communication skills.
- Ability to direct and inspire a team towards a unified goal.
- Self-motivated with the ability to complete large complex projects by identifying and prioritizing tasks in a fast-paced environment.
